

# OffenderWatch® – the nation’s leading registered sex offender registration, monitoring and community notification program.

**Industry-tested for over 10 years, Offender-Watch® is in use by over 600 agencies in 38 states, including 11 statewide implementations.** Only OffenderWatch® provides a comprehensive, fully Adam Walsh Act/SORNA compliant tool that enables agencies and their offenders to comply with local, state and federal law and deliver outstanding community notifications and Information.

Watch Systems pioneered the development 10 years ago of registered sex offender management and community notification systems and has seen the OffenderWatch® tool become the industry standard for agencies serving populations as low as 5,000 to over 2 million.

Unlike other tools, OffenderWatch® is a full-featured, well-supported solution offering key features, from both a management and a community notification perspective, that are unmatched in the industry. That’s why so many of the leading law enforcement agencies across the country trust OffenderWatch®!

## OffenderWatch® Registration and Management Features

Feature	Benefit	OffenderWatch®	Others
<b>Web Based</b>	Accessible via the internet, via a secure thin client for FAST response.	✓	
	Unlimited users from sheriff, PD’s and partner agencies.	✓	
	Highly configurable for each state and jurisdiction, and exportable to state registry, spreadsheet or RMS systems via JXML.	✓	
<b>Customized for your jurisdiction</b>	State-specific offense codes, risk levels & custom info & processes.	✓	
	Prints and submits your states registration form automatically.	✓	
	Able to update state registry with offender data, bi-directionally, supports state Dept of Corrections “pre-registration of offenders.”	✓	
	Supports “special notification recipients” to notify special names/addresses by various means according to various rules.	✓	
	Share data for investigations and import/export offender data with other regional agencies in real time.	✓	
<b>Automated</b>	Automatically geocodes & maps all offender addresses (home, school, work, volunteer, temporary) backed by full time tech support desk to fix unmappable addresses.	✓	
	Auto-validates safety buffers around schools, day cares, parks, churches, libraries, from either points or parcels (school boundaries.)	✓	
	Instant address checker for verifying addresses when offender calls in – this can be linked to your web site so offenders can test their own addresses.	✓	
	Automatically places offenders on forward-looking calendars for compliance checks based on agency defined verification cycles; such as annual, semi-annual, monthly, etc...	✓	
	Alerts your registration officer by email if any of your offenders are booked into jail anywhere in the US – stop searching for offenders who are sitting in jail!	✓	
	Auto creates postal notification flyers for US postal notification to all residents within a user defined radius of offender – especially useful for high risk offenders and to comply with state laws.	✓	
<b>Versatile tool</b>	Not limited to sex offenders: OffenderWatch allows management, tracking, mapping and reporting on non-sex offenders such as gang members, arsonists, violent felons, career criminals, parolees, etc... with full management and mapping capabilities, can be published or not.	✓	

## OffenderWatch® Community-Side Functionality

Feature	Benefit	OffenderWatch®	Others
<b>Customized for your jurisdiction</b>	Agency-personalized web page linked from your web site for your citizens to view neighborhood maps, sign up for email alerts and view safety information.	✓	
	Personalized agency banner to go across search page and email alerts. Banner can be shared between participating agencies or each can have their own.	✓	
	Agency-personalized flyers with safety tips for community awareness.	✓	
<b>Automated</b>	Provides email, postal flyer, telephone and text messaging options to citizens.	✓	
	Citizens can confidentially register as many addresses as they wish at no cost, and they will be notified via agency-personalized email if any new offender moves in to the watch radius.	✓	
	Allows citizens to register to be notified if any specific offender they care about moves from their current address.	✓	
<b>Useful Maps</b>	Utilizing the <i>Smart Radial</i> , citizens are shown the optimum radius for mapping or notifications from .25 miles up to 2 miles.	✓	
	Proven mapping solution delivering nearly 15 million maps to citizens 24/7 365 days a year – millions and millions of emails and postal flyers sent each year.	✓
